

FANS FOR PHARMACEUTICAL INDUSTRY

With over 70 Years of experience in manufacturing of Industrial Fans and Blowers, Nadi Airtechnics offers high-quality Industrial Fans to Global Customers across multiple industries. Nadi is Certified for ISO 9001, ISO 14001, ISO 45001 and AAR by TÜV Rheinland, Association of American Railroads, TÜV NORD GROUP for standards.

NADI's products are manufactured at its state of the art facility located in Chennai, India using manufacturing equipment incorporating the latest European and American technology.

NADI Fans for Pharmaceutical industry

- Nadi has variety of fan series with many impeller designs to solve the purpose based on the flow-pressure requirement requested by end user
- Nadi design with aerofoil impeller provides superior performance for clean air
- Based on air cleanliness level, Nadi also provides solutions with impellers of backward curved blade design, backward inclined blade design etc.

Application:

- Ventilation
- Clean room maintenance
- Supply & Exhaust system
- Cooling
- Drying / Mixing / Packing
- Air handling units

To serve hygienic atmosphere, Nadi fans are produced with very special features in following the below process

- Right Material selection for fan component in direct contact with substance
- Special type of welding on fan components to prevent molds or bacteria formation
- Component surface smooth finishing in order to avoid sticking of food material
- Special type of impeller blade with self cleaning design
- Minimising weldments in flow passages specially in low width impeller in order to avoid material deposition
- All the above special features followed in welding, surface finishing, self cleaning impeller designs, reduces the frequency of cleaning
- Based on Quantity of materials being conveyed, Nadi offers fan with impeller design with backward inclined blade, radial tipped blade, radial blades

NADI ADVANTAGE ON-THE-GO!

Buying a NADI product is just a click away.
